**Grappler.** The gaping maw has advantage on attack rolls against a creature grappled by it.

**Regeneration.** At the start of each of its turns, the gaping maw regains 5 hit points. If the gaping maw takes damage from a creature it has swallowed, this trait doesn’t function on the gaping maw’s next turn. This trait ceases to function while the gaping maw has 0 hit points.

**Tentacle Pull.** The gaping maw can use its move to pull any number of creatures it is grappling adjacent to it.

## Actions

**Multitack.** A gaping maw may make two tentacle attacks or one tentacle attack and one bite attack.

**Bite. Melee Weapon Attack:** +8 to hit, reach 5 ft., one creature. *Hit:* 20 (3d10 + 5) piercing damage.

**Tentacle. Melee Weapon Attack:** +8 to hit, reach 15 ft., one creature. *Hit:* 14 (2d8 + 5) bludgeoning damage and the target is grappled (escape DC 16). Until the grapple ends the target is restrained. The gaping maw has four tentacles and so it can only grapple four creatures in this way.

**Crush.** All creatures swallowed by the gaping maw must make a DC 15 Strength saving throw, taking 16 (3d10) bludgeoning damage on a failed saving throw and half as much on a successful one.

**Swallow.** The gaping maw makes one bite attack against a Medium or smaller target it is grappling. If the attack hits, the target is swallowed and the grapple ends. The swallowed target is blinded and restrained, it has total cover against attacks and other effects outside the gaping maw.

Swallowed creatures must succeed on a DC 15 Constitution saving throw or become paralyzed for 24 hours. At the end of this period if the creature is still swallowed by the gaping maw they save again or remained paralyzed for another 24 hours. If the creature does save but remains swallowed it is subject to another saving throw 24 hours after the successful one. A swallowed creature’s maximum hit points are reduced by 1 for every day it is swallowed. When it’s hit point maximum is reduced to 0 the creature is completely digested by the gaping maw and dies. The creature’s hit point maximum returns to normal when it is outside the gaping maw’s stomach for 24 hours.

**Cherry Bomb**. The bunny hurls the cherry atop its head up to 150 feet and it explodes in a 20-foot-radius sphere. Creatures in the area must make a DC 18 Constitution saving throw. Creatures who fail take 35 (10d6) cold damage and are stunned for 1 minute. Creatures who succeed take half damage and are not stunned. Freedom of Movement. The sand kraken ignores difficult terrain, and magical effects can’t reduce its speed or cause it to be restrained. It can spend 5 feet of movement to escape from nonmagical restraints or being grappled.

Legendary Resistance (3/Day). If the sand kraken fails a saving throw, it can choose to succeed instead.

Siege Monster. The sand kraken deals double damage to objects and structures.

Actions

Multitask. The sand kraken makes three tentacle attacks, each of which it can replace with one use of Fling.

Bite. Melee Weapon Attack: +18 to hit, reach 5 ft., one target. Hit: 23 (3d8 + 10) piercing damage. If the target is a Large or smaller creature grappled by the sand kraken, that creature is swallowed, and the grapple ends. While swallowed, the creature is blinded and restrained, it has total cover against attacks and other effects outside the sand kraken, and it takes 42 (12d6) acid damage at the start of each of the sand kraken’s turns.

If the sand kraken takes 50 damage or more on a single turn from a creature inside it, the sand kraken must succeed on a DC 25 Constitution saving throw at the end of that turn or regurgitate all the swallowed creatures, which fall prone in a space within 10 feet of the sand kraken. If the sand kraken dies, a swallowed creature is no longer restrained by it and can escape from the corpse using 15 feet of movement, exiting prone.

Tentacle. Melee Weapon Attack: +18 to hit, reach 30 ft., one target. Hit: 20 (3d6 + 10) bludgeoning damage, and the target is grappled (escape DC 18). Until the grapple ends, the target is restrained. The sand kraken has ten tentacles, each of which can grapple on target.

Fling. One Large or smaller object held or creature grappled by the sand kraken is thrown up to 60 feet in a random direction and knocked prone. If a thrown target strikes a solid surface, the target takes 3 (1d6) bludgeoning damage for every 10 feet it was thrown. If the target is thrown at another creature, that creature must succeed on a DC 18 Dexterity saving throw or take the same damage and be knocked prone.

Fire Storm. Fire erupts from the sand kraken. Every creature within 60 feet of the sand kraken must make a DC 23 Dexterity saving throw, taking 19 (3d12) fire damage on a failed saving throw, or half as much damage on a successful one.

Regional Effects
The region containing a sand kraken’s lair is warped by the creature’s evil presence, creating the following magical effects:

- The sand kraken can create massive sand storms within a 6-mile radius of its lair. These storms lightly obscure the area, cause disadvantage on Wisdom (Survival) checks, and create difficult terrain. This sand storm does not affect the sand kraken.
- Earth elementals coalesce within a 6 miles of the lair. These elementals have Intelligence and Charisma scores of 1 (-5).
- Insect, arachnid, and reptilian creatures within 6 miles of the lair that have an Intelligence score of 2 or lower are charmed by the sand kraken and aggressive toward intruders in the area.

When the sand kraken dies, all of these regional effects fade immediately.

**Challenge** 30 (155,000 XP)

**Absorb the Dead.** Whenever a creature dies within 120 feet, the dead creature’s remains join The Lingering Havoc’s form and The Lingering Havoc regains 50 hit points.

**Cold Winds.** A blizzard is constantly swirling around the The Lingering Havoc. All space in a 120-foot cube centered on The Lingering Havoc is considered difficult terrain.

**Ice Walk.** The Lingering Havoc can move across and climb icy surfaces without needing to make an ability check. Additionally, difficult terrain composed of ice or snow doesn’t cost it extra movement.

**Legendary Resistance (3/Day).** If The Lingering Havoc fails a saving throw, it can choose to succeed instead.

**Limited Magic Immunity.** The Lingering Havoc is immune to spells of 7th level or lower which do not deal fire or radiant damage, unless it wishes to be affected. It has advantage on saving throws against all other spells and magical effects, including spells which deal fire and radiant damage.

**Magic Weapons.** The Lingering Havoc’s weapon attacks are magical.

**Regeneration.** The Lingering Havoc regains 30 hit points at the start of its turn. If The Lingering Havoc takes radiant or fire damage, this trait doesn’t function at the start of The Lingering Havoc’s next turn. The Lingering Havoc dies only if it starts its turn with 0 hit points and doesn’t regenerate.

**Actions**

**Multiattack.** The Lingering Havoc can use its Frightful Presence or Hurl Corpse and then makes four attacks, which can be any combination of slam and frozen bone shard attacks.

**Slam.** *Melee Weapon Attack:* +19 to hit, reach 15 ft., one target. *Hit:* 32 (4d10 + 10) bludgeoning damage.

**Frozen Bone Shard.** *Ranged Weapon Attack:* +19 to hit, range 120/360 ft., one target. *Hit:* The target takes 20 (3d6 + 10) piercing damage, 9 (2d8) cold damage, and has its speed reduced by 10 feet until the start of The Lingering Havoc’s next turn.

**Hurl Corpse.** The Lingering Havoc targets one creature within 120 feet and throws a Medium humanoid corpse at it. The target must succeed on a DC 27 Reflex saving throw, or become prone and grappled by the corpse, which becomes a wight under The Lingering Havoc’s control. The wight attacks immediately. If the target succeeds on the saving throw, it is not grappled, but they are adjacent to the corpse, which immediately rises and attacks as a wight under The Lingering Havoc’s control. All wights created this way are reabsorbed into The Lingering Havoc at the end of battle and The Lingering Havoc cannot regain hit points from these absorptions.

**Frightful Presence.** Each creature of The Lingering Havoc’s choice within 120 feet of it and aware of it must succeed on a DC 22 Wisdom saving throw or become frightened for 1 minute. A creature can repeat the saving throw at the end of each of its turns, with disadvantage if The Lingering Havoc is within line of sight, ending the effect of itself on a success. If a creature’s saving throw is successful or the effect ends for it, the creature is immune to The Lingering Havoc’s Frightful Presence for the next 24 hours.

**Ultimate Death Ray (Recharge 4 - 6).** The Lingering Havoc chooses 1 creature to which it has a line of effect within 120 feet. That creature must make a DC 22 Dexterity saving throw. On a success, the target takes 55 (10d10) necrotic damage. On a failed save the target is reduced to 0 hit points.

**Corpse Drop (Recharge 5 – 6).** The Lingering Havoc exalas poisonous gas in a 90-foot cone. Each creature in the area must make a DC 27 Constitution saving throw, taking 91 (26d6) poison damage on a failed save, or half as much damage on a successful one. A creature who fails this save is also poisoned for 1 minute. A creature can repeat the saving throw at the end of each of its turns, ending the effect on itself on a success.

**Legendary Actions**

The Lingering Havoc can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature’s turn. The Lingering Havoc regains all spent legendary actions at the start of its turn.

**Attack.** The Lingering Havoc makes one slam or frozen bone shard attack.

**Move.** The Lingering Havoc moves up to half its speed.

**Command Wights.** The Lingering Havoc can cause up to four wights under its control to attack.

**Ultimate Death Ray (Costs 2 Actions).** The Lingering Havoc uses its Ultimate Death Ray.

At will: bless, invisibility, locate creature, misty step, ray of frost, scrying, sleep, zone of truth
3/day: cone of cold, hold monster, mass cure wounds, sleet storm
1/day: teleport, time stop, wall of ice

**Actions**

**Multiattack.** Santa can make three sack of gifts attacks or two Jolly Holly
Santa's Lair

Santa's Lair is a magical workshop run by his winter elves (a size Small subrace of elves). Here these creatures make toys and other gifts. Various items symbolic to a plethora of Winter holidays decorate the walls of this grand mansion.

Most of the workshop is dedicated to the construction and delivery of gifts. There’s huge rooms dedicated to carpentry, mechanics, gift wrapping, candy-making, and stables for reindeer. The elves have a spacious dormitory, Santa and his wife have modest living quarters, and all residents share a dining hall and library. A special room in the center of the mansion gives Santa the ability to scry on any creature on the same plane.

While Santa’s workshop may appear harmless, the property is well protected. Only creatures of good alignment can actually see the mansion from the outside. Inside the workshop, seemingly harmless life-sized toy soldiers, teddy bears, and dolls come to life and attack intruders while magic traps controlled by Santa can blast enemies with cold energy and effects last until the end of Santa’s next turn.

Open Up Your Present. Santa hurls a random gift from his sack up to 90 feet. It explodes in a 20-foot-radius sphere. Creatures in the area must make a DC 21 Constitution saving throw. Creatures who fail take 21 (6d6) cold damage. Creatures who succeed take half. In addition creatures who fail the save suffer a random effect rolled on a d4. On a 1 they’re blinded, on a 2 they’re deafened, on a 3 they’re frightened of Santa, on a 4 they’re poisoned. The random effect lasts one minute. A creature can repeat the saving throw at the end of its turn, ending the effect early on a success.

Peace on Earth. Santa and any number of creatures he chooses within 30 feet fall under the effect of the sanctuary spell (DC 21). The effect lasts 1 minute, but ends early if Santa attacks, casts a spell, or chooses to end the effect as a bonus action.

Legendary Actions

Santa can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature’s turn. Santa regains all spent legendary actions at the start of his turn.

Jolly Holly. Santa attacks with Jolly Holly.

Twinkly Eyes. Santa targets one creature he can see that can also see him within 30 feet. The target must succeed on a DC 21 Wisdom saving throw or become charmed by Santa until the end of Santa’s next turn. While charmed by Santa the creature cannot attack him.

You’ve Been Naughty. Santa shows a creature within 30 feet who can seem him its name on the naughty list. The creature must succeed on a DC 21 Wisdom saving throw or suffer disadvantage on all attacks against Santa and his allies. In addition Santa and his allies have advantage on attack rolls against the target, and the target suffers disadvantage on saving throws against the effects of Santa’s abilities and spells. These effects last until the end of Santa’s next turn.

Lair Actions

On initiative count 20 (losing initiative ties), Santa takes a lair action to cause one of the following effects; Santa can’t use the same effect two rounds in a row:

- Magic mistletoe grows down from the ceiling and attempts to grab up to three creatures Santa can see within 120 feet of him. Those creatures must succeed on a DC 15 Dexterity saving throw or be restrained until the end of Santa’s next turn. While restrained this way can try and free itself as an action with a DC 15 Dexterity (Acrobatics) check. Another creature that Santa can attack the mistletoe and attempt to destroy it (AC 15, HP 20, immune psychic, vulnerable slashing).
- Spectral jingle bells appear and sound. Each creature within 120 feet of Santa who can hear the bells must make a DC 15 Wisdom saving throw. Santa can slide any creature who fails 30 feet in the direction of his choosing.
- Santa laughs and the ground shakes like a bowl full of jelly within a 60-foot radius around him. Every creature on the ground within the area other than Santa must succeed on a DC 15 saving throw or be knocked prone.

Regional Effects

The region containing Santa’s lair is changed by his magic, which creates one or more of the following effects:

- All pack animals (such as horses, reindeer, and oxen) gain a fly speed equal to their speed within 6 miles of the lair.
- For non-evil creatures any snow within 6 miles of the lair tastes like peppermint and provides nourishment. Such creatures automatically succeed on Constitution saving throws against exhaustion due to harsh climate within 6 miles of the lair, warmed by a delightful feeling which comes from within their hearts.
- Snowmen created by creatures with the good alignment within 1 mile of the lair come to life and point the way to Santa’s workshop. Evil creatures who build snowmen within 1 mile of the lair find the creation explodes upon completion, dealing 11 (2d10) cold damage to anyone within 5 feet of it.

If the Santa dies permanently, the effects end immediately.

Shapechanger. If the vampire isn't in the sunlight or running water, it can use its action to polymorph into a Tiny bat, Medium cloud of mist, Small or Medium humanoid, Large giant, or back into its true form.

While in bat form, the vampire can't speak, its walking speed is 5 feet, and it has a flying speed of 30 feet. Its statistics, other than its size and speed, are unchanged. Anything it is wearing transforms with it, but nothing it is carrying does. It reverts to its true form if it dies.

While in mist form, the vampire can't take any actions, speak, or manipulate objects. It is weightless, has a flying speed of 20 feet, can hover, and can enter a hostile creature's space and stop there. In addition, if air can pass through a space, the mist can do so without squeezing, and it can't pass through water. It has advantage on Strength, Dexterity, and Constitution saving throws, and it is immune to all nonmagical damage, except the damage it takes from the sunlight.

While in humanoid or giant form, other than its size the vampire's statistics are the same in each form. The only equipment which transforms is its glaive, which shrinks so it can be wielded in humanoid form. If the vampire dies, it reverts to its true form, and its glaive reverts to its normal size.

Innate Spellcasting. The vampire's innate spellcasting ability is Charisma (spell save DC 14). The vampire can cast the following spells, requiring no material components.

At will: darkness, invisibility
1/day each: charm person, cone of cold, gaseous form, sleep

Legendary Resistance (3/day). If the vampire fails a saving throw, it can choose to succeed instead.

Magic Weapons. The vampire’s weapon attacks are magical.

Misty Escape. When it drops to 0 hit points outside its resting place (Sveja’s resting place is the trash pit in area C7), the vampire transforms into a cloud of mist (as in the Shapechanger trait) instead of falling unconscious, provided that it isn't in sunlight or running water. If it can't transform, it is destroyed.

While it has 0 hit points in mist form, it can't revert to its vampire form, and it must reach its resting place within 2 hours or be destroyed. Once in its resting place, it reverts to its vampire form. It is then paralyzed until it regains at least 1 hit point. After spending 1 hour in its resting place with 0 hit points, it regains 1 hit point.

Regeneration. The vampire regains 20 hit points at the start of its turn if it

has at least 1 hit point and isn’t in sunlight or running water. If the vampire takes radiant damage or damage from holy water, this trait doesn’t function at the start of the vampire’s next turn.

Spider Climb. The vampire can climb difficult surfaces, including upside down on ceilings, without needing to make an ability check.

Vampire Weakness. The vampire has the following flaws:

Forbiddance. The vampire can’t enter a residence without an invitation from one of the occupants.

Harmed by Running Water. The vampire takes 20 acid damage if it ends its turn in running water.

Sunlight Hypersensitivity. The vampire takes 20 radiant damage when it starts its turn in sunlight. While in sunlight, it has disadvantage on attack rolls and ability checks.

Actions

Multattacl (Vampire, Giant, or Humanoid form only). The vampire makes two attacks, only one of which can be a bite attack.

Claws (Vampire form only). Melee Weapon Attack: +9 to hit, reach 5 ft., one target. Hit: 8 (1d8 + 4) slashing damage. Instead of dealing damage, the vampire can grapple the target (escape DC 18).

Glaive (Vampire, Giant, or Humanoid form only). Melee Weapon Attack: +9 to hit, reach 10 ft., one target. Hit: 15 (2d10 + 4) slashing damage, or 9 (1d10 + 4) slashing damage in Small or Medium human form.

Bite (Vampire form only). Melee Weapon Attack: +9 to hit, reach 5 ft., one willing creature, or a creature that is grappled by the vampire. Hit: 7 (1d6 + 4) piercing damage plus 10 (3d6) necrotic damage. The target's hit point maximum is reduced by an amount equal to the necrotic damage taken, and the vampire regains hit points equal to that amount. The reduction lasts until the target finishes a long rest. The target dies if this effect reduces its hit point maximum to 0. A humanoid or giant slain in this way and then buried in the ground rises the following night as a vampire spawn under the vampire's control.

Charm. The vampire targets one humanoid or giant it can see within 30 feet of it. If the target can see the vampire, the target must succeed on a DC 15 Wisdom saving throw against this magic or be charmed by the vampire. The charmed target regards the vampire as a trusted friend to be heeded and protected. Although the target isn't under the vampire's control, it takes the vampire's requests or actions in the most favorable way it can, and it is a willing target for the vampire's bite attack.

Each time the vampire or the vampire's companions do anything harmful to the target, it can repeat the saving throw, ending the effect on itself on a success. Otherwise, the effect lasts 24 hours or until the vampire is destroyed, is on a different plane of existence than the target, or takes a bonus action to end the effect.

Children of the Night (1/day). The vampire magically calls 2d4 swarms of bats or rats, provided that the sun isn’t up. While outdoors, the vampire can call 3d6 wolves instead. The called creatures arrive in 1d4 rounds, acting as allies of the vampire and obeying its spoken commands. The beasts remain for 1 hour, until the vampire dies, or until the vampire dismisses them as a bonus action.

Legendary Actions

The vampire can take 3 legendary actions, choosing from the options below. Only one legendary action option can be used at a time and only at the end of another creature’s turn. The vampire regains spent legendary actions at the start of its turn.
Move. The vampire moves up to its speed without provoking opportunity attacks.

Polymorph. The wereboar can use its action to polymorph into a boar-humanoid hybrid or into a boar, or back into its true form which is humanoid. Its statistics, other than its AC and speed, are the same in each form. Any equipment it is wearing or carrying isn’t transformed. It reverts to its true form if it dies.

Brave. The wereboar has advantage on all saving throws against being frightened.

Charge (Boar or Hybrid Form Only). If the wereboar moves at least 15 feet straight towards a target and then hits it with its tusks on the same turn, the target takes an extra 7 (2d6) slashing damage. If the target is a creature, it must succeed on a DC 13 Strength saving throw or be knocked prone.

Lucky. When the wereboar rolls a 1 on an attack roll, ability check, or saving throw, it can reroll the die and must use the new roll.

Reckless. At the start of its turn, the wereboar can gain advantage on all melee weapon attack rolls during that turn, but attack rolls against it have advantage until the start of its next turn.

Relentless (Recharges after a Short or Long Rest). If the wereboar takes 14 damage or less that would reduce it to 0 hit points, it is reduced to 1 hit point instead.

Stout Resilience. The wereboar has advantage on saving throws against poison.

Actions

Multitask (Halfling or Hybrid Form Only). The wereboar makes two attacks, only one of which can be with its tusks.

Mounts
Canus is home to some bizarre and wonderful animals that serve as mounts. Many can cross certain types of difficult terrain at normal speed. The table below indicates which types of difficult terrain specific mounts can ignore. These are common mounts for sale, other fantastic mounts might be found and trained at the DM’s discretion. Descriptions are provided for the mounts which require them.

Dogsled and Team. A team of 8 dogs comes with a sled, ready to pull a rider and gear across the frozen landscapes of Canus.

Mountain Ram. Huge goats large enough to hold a man were first trained
by the Bragonian dwarves. Now they are the preferred method of travel for all who traverse mountainous peaks.

**Ornithopter.** This is a special one-person flying machine created by Bragonay’s artsans for reconnaissance and solo travel. Its bird-shape has huge flapping wings which allow for lift and propulsion. These wings are powered by the rider through foot pedals. An ornithopter can glide great distances.

**Riding Deer.** These over-sized white-tailed deer were first bred by elves to be large enough to hold a rider. They spring through wooded forests and hills with ease.

**Riding Turtle.** These enormous, freshwater turtles are large enough to hold one rider comfortably on the shell. The turtles are trained to swim on the surface, since most of their riders cannot breathe underwater, however, they can be commanded to dive and surface. Turtles like this are often used in lieu of boats when traveling on lakes and rivers.
